If you are a veteran in a residency or postdoctoral program and wish to enroll in VA educational benefits, it is necessary to have the forms signed by a VA-authorized certifying official. If forms are signed by an unauthorized individual, benefits are delayed, or the VA can demand repayment.

The authorized certifying official for UCSF is Marcia Grumme, Financial Aid Office/Veterans Affairs, 520 Parnassus, Lower Level.

Departmental inquiries regarding veterans' educational benefits should be directed to Alisa Stansbury, x4181. Veterans wishing to claim benefits may see a drop-in advisor on Mondays or Thursdays, or call for an appointment on Tuesdays, Wednesdays and Fridays. Office hours are 8:30 a.m. to 5:15 p.m.

The Personnel Department Employment Division in Room U 12 has new hours of operation: Mondays, Tuesdays, Thursdays and Fridays, 8 a.m. to 5 p.m.; Wednesdays, 8 a.m. to 6:30 p.m.

TODAY & TOMORROW

SAFETY RECOMMENDATIONS UPDATE

The following actions have been taken since the Chancellor's August 18 memo in response to the recommendations of the Chancellor's Ad Hoc Committee on Personal Safety:

GARAGE SECURITY

- Mirrors and better lighting have been installed in the west stairway of the Millberry Union Garage. This stairway should be used at all times except for emergencies. Other stairways have been marked for emergency use only.
- The ceiling in the Millberry Union west stairwell will be painted within the next week to further improve illumination.
- New equipment is being installed in the garage to improve security. Once completed, all entry to and exit from the garage between 6 p.m. and 7 a.m. will be on Parnassus.

GENERAL CAMPUS SECURITY

- All exterior doors are being checked and faulty locks are being replaced or repaired. A revised door locking schedule has been proposed. Actions on this will appear in the next issue of *Today & Tomorrow.*
- In the HSE and HSW corridors light timers have been modified to improve after-hours lighting, and peep holes will be installed in the doors.
- A letter has been sent to all campus managers reminding them of their responsibilities to report building deficiencies and providing them with specific instructions for implementing repairs.

SAFETY CLASSES

- A free Self-Defense Workshop was held for campus employees and students on August 23. Another one will be held on Saturday, September 27 from 9 a.m. to 5 p.m. in Room 130 C. It is free for UCSF faculty, students and staff and $15 general.
- Self-Defense Classes will run September 30 through December 4, every Tuesday in Room 130 C and Thursday in Room 517 N from noon to 1:30 p.m.; and Mondays, September 29 to December 15 in Room 130 C from 5:30 to 8 p.m. These classes have already begun at SFGH, and will run through November 6, Tuesdays and Thursdays, in the Conference Room 3, 2nd floor Cafeteria from 5 to 6:30 p.m. Classes are $25 general; reduced rates for UCSF students, staff and faculty are $10. An advanced class will be offered on Thursdays, October 16, 23, and 30 from 7:30 to 10 p.m. in Room 517 N. The fee for everyone is $18.
- A Tear Gas (mace) Class will be held on Wednesday, September 10 in 517 N from 4-6 p.m. The cost is $15 for UCSF students, staff, and faculty; $31 general. The $15 pays for the container of mace.

The next UCSF Golf Tournament will be held on Friday, September 26 at the Sonoma National Golf Club, 17700 Arnold Drive, Boyes Hot Springs.

UCSF faculty, staff, students, and friends (golfers and non-golfers) are invited to attend. There is a $25 entry fee that includes greens fee and buffet dinner. Prizes will be given for low net, low gross, longest drive, fewest putts, and closest to the hole.

For entry forms, rules of play, a map, and further information contact Anita Pool, x4318, SSB Lower Level, before Tuesday, September 16.

NEWS BRIEFS

Nominations for the Chancellor's Award for University Service are due by Friday, September 12, in SSB Lower Level. The award recognizes dedicated employees who have provided many years of exceptional service.

To be eligible, staff employees must be at the top of their salary range for five years or longer as of July 1, 1980, be nominated by their supervisor and endorsed by their department head, and not have received this award in the last three years. Nominations submitted must include: 1) a copy of the nominee's job description, 2) the supervisors' objective statements about job performance including effort, benefit, lasting impact, and base operation, and 3) two supporting letters from peers.

The Chancellor will present up to 10 awards to this year's recipients on Friday, October 24. They will each receive a UCSF medallion, a framed certificate, and a check for $750.

For further information contact the Office of the Vice Chancellor, Personnel and Student Services, x4318.

The PhD Program in Human Development and Aging is accepting applications for admission for Fall 1981 from behavioral science graduate students with an M.A. or equivalent. Health sciences and humanities students will be considered if they have adequate behavioral science training at the master's level.

The program, under the chairmanship of Marjorie Fiske, provides future academic teachers and researchers with thorough interdisciplinary training in techniques and theories of adult psychosocial development and aging through the close integration of teaching and research.

For further information on the Fall 1981 term, contact Admission Coordinator, Human Development and Aging Program, 745 Parnassus before February 1981.

Applications are now being accepted for Affirmative Action Faculty Development Awards. Those eligible include women and minority junior faculty holding tenure track positions, in-residence titles at junior level, and all other faculty in all other title series at the junior level.

Applications are to be submitted by Wednesday, October 15, to the Vice Chancellor, Academic Affairs, 115 S, through the candidate's chairperson and the associate dean, each of whom should attach letters evaluating the merits of the application.

The primary purpose of the affirmative action faculty development program is to strengthen the development of academic excellence and to increase the diversification of the tenured faculty by assisting minority and female junior faculty members in achieving the high quality of scholarship and research necessary for advancement to tenure.

For further information contact Robert D. Gibson, faculty liaison to vice chancellor, Academic Affairs, x2732.

LPPI's Habit Abatement Clinic has a new stop-smoking program to prepare cigarette smokers between the ages of 21 and 55 who do not have heart or lung disease for the inevitable urge to smoke again.

The National Institute of Drug Abuse is supporting this one-of-a-kind program with a three-year grant of $269,000. More than 125 persons are expected to participate in this research-oriented stop-smoking program directed by Sharon Hall, assistant professor, Psychiatry. Reese Jones, professor, Psychiatry, serves as medical director. The goal of the project is to find the best ways to keep people from going back to their cigarette habit after they have quit.

There is no fee, however a $65 refundable deposit is required.

The program consists of 12 sessions over a period of 3 weeks. Each session lasts for 1 hour and 15 minutes and takes place at LPPI. For further information contact Deborah Rugg, x7-453.

Dedication of the Edison Uno Plaque will be held on Thursday, September 25 at 1:30 p.m. in the Millberry Union plaza.

The plaque is in memory of Mr. Uno, assistant dean of students at UCSF from 1969-74 who gave his time and energies to represent the best interests of the students and employees of UCSF as well as of the needs of the community.

A number of Japanese-American dignitaries and Mayor Dianne Feinstein have been invited to attend. UC Regent Yori Wada is the scheduled guest speaker.

One of the first recipients of the Chancellor's Award for Public Service, Uno was active in his efforts to achieve better financial aid and access to married and student housing for minority students while on campus.

The Friends of LPPI Annual Meeting and Luncheon will be held on Thursday, October 2 at 11:45 a.m. at the Culinary Academy, 215 Fremont Street, S.F. Guest speaker will be Selma Fraiberg, professor, Child Psychoanalysis and director, Infant-Parent Program, SFGH, who will speak on "Psychiatry and Infant Mental Health."

The meeting will honor Jay Darwin, Alfred S. Wilsey, Sr., and United Airlines for their encouragement and support of mental health in the Bay Area.

A tax-deductible donation of $25 per ticket is suggested; $20 for members of Friends of LPPI. For reservation information call x7-397 between 9:30 a.m. and 1:30 p.m.

The Friends of LPPI have raised over $108,000 this year: a private donation of over $82,000 for remodeling research space for the Center for the Study of Neuroses and a minibus for transporting patients to community outings, and $26,000 through the efforts of the Friends Ad Hoc Committee for the Children's Playground. Of this, $7,500 was from the Transamerica Corporation, $12,000 from the Morris Stulsaft Foundation, and $6,500 from the Bothin Helping Fund.

UCSF's Teen Clinic offers a group program called "Shape Down" or individual weight management programs designed for teenagers who are ready to set their own goals for long-term weight control.

The purpose of the programs is to improve individuals' eating habits, exercise routines, and self-esteem. For further information contact Laurel Mellin at x2184.

The First Annual Samuel J. Kimura Lecture will be held on Thursday, September 18 at 9:15 a.m. in Room 301 HSW. J. Donald Gass, professor of Ophthalmology at the Bascom Palmer Eye Institute, University of Miami Medical School, will present "Posterior Uveitis - Some New Clinical Syndromes - Update 1970-80."

The Lectureship honors the professor emeritus of Ophthalmology who died in October of 1979. Kimura, a world authority on uveitis and other ocular inflammatory diseases, had been associated with the UCSF Department of Ophthalmology since 1946. In 1959 he was appointed vice-chairman of the Department, and held this position until retirement in 1979. He also served as chief of the Outpatient Eye Clinic from 1951 to 1978.

The lectureship is sponsored by the Department of Ophthalmology.

The first "UCSF Chancellor's Distinguished Lecture for the Public Understanding of Science" will be held the week of November 17, 1980. The new lectureship will bring a distinguished national science writer to UCSF each year for a four-day dialogue with faculty, students and staff to discuss ways of strengthening public understanding of biomedical science. The public lecture is scheduled for Wednesday, November 19 in 302 HSW at 4 p.m.

This year's lecturer will be Barbara Culliton, news editor of *Science* magazine, and president-elect of the National Academy of Science Writers.

In describing the reason for this new lectureship, the Chancellor declared that science and technology are creating issues that increasingly impinge on society and the daily life of the individual. "It is imperative in a democracy that people fully understand these biomedical, scientific, and technological issues, so that they fully understand the basis upon which they are making their choices. Science writing in the lay press and media is the key to this public understanding."

All UC faculty are encouraged to submit applications for either campus or university-wide conferences and seminars on current topics in cancer research during the 1980-81 fiscal year.

The conferences and seminars are funded by the UC Cancer Research Coordinating Committee and will be open to all interested UC faculty and students. They are designed to encourage the exchange of ideas among university investigators and to increase faculty and student awareness of important cancer research developments.

For further information contact the CRCC Office in Berkeley, 642-2923, between 8 and 11 a.m.

(More Newsbriefs on back page.)
